

SASSA Group

Global Standards. Timeless Values.

Group Overview

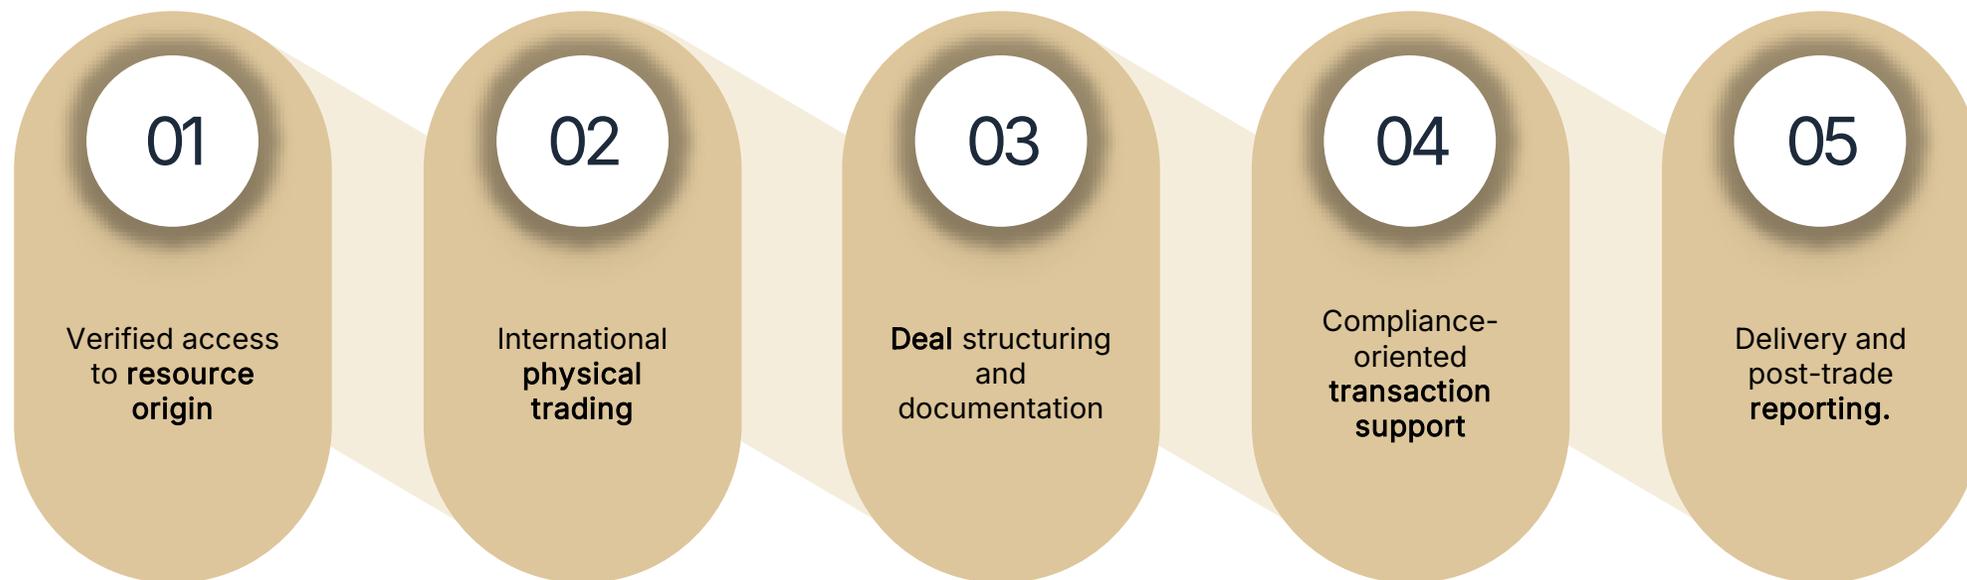

SASSA Group is an international trading group operating at the intersection of **resource access, physical trade, and structured execution.**

We structure and manage commodity transactions with a focus on **transparency, process discipline, and reduced execution uncertainty** across multiple jurisdictions.

A defining feature of our model is a **focus on controlled execution.**

What We Do

We operate an **integrated commodity trading model**, covering:

One logic. One standard. Clear accountability.

Group Structure

Unified operating framework

Resources

origin and resource
base

Trading

international physical
trade

Services

deal structuring and
support

Platform

execution, control, and
compliance

Network

partner and mandate
ecosystem

All elements operate within a single execution framework.

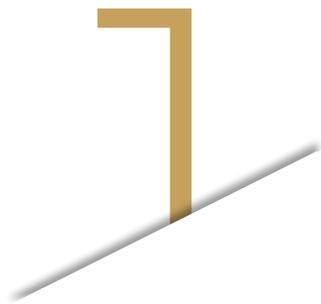

Execution is a system.

Execution as a Core Focus

In global commodity trade, the decisive factor is not the contract, but the quality of execution.

Within our model:

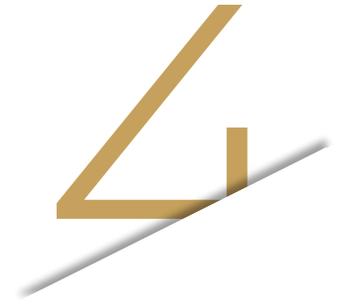

Transactions do not commence
without structural clarity

Key parameters are fixed prior to
commitment

Risks are identified and
addressed in advance

Structure reduces dependency
on individual factors

We operate in a framework of **discipline and responsibility**.

SASSA Platform™

Institutional trust is formed
through systems and consistency.

SASSA Platform™ represents our internal execution framework, including:

01

Standardized deal documentation.

02

Verification and compliance procedures.

03

Transparent decision logic.

04

Readiness for internal and external review.

05

Repeatability across markets.

Full Transaction Cycle

We manage transactions across the full lifecycle:

Origin

Structuring

Compliance

Execution

Delivery

Reporting

Each stage follows predefined standards,
enhancing predictability, transparency, and control.

SASSA

Global Presence

One execution logic — different markets.

Regional Presence

in Key Operational Locations

Production assets in LATAM and the Caspian region

Export and logistics hubs in LATAM, MENA, and Central Asia.

Industrial demand markets across Asia.

One Flow. Four Key Regions.

Our core macro-regions:

1

LATAM

Latin America

Mexico, Brazil, Colombia, Peru, Chile

2

MENA

Middle East and North Africa

UAE, Saudi Arabia, Oman

3

Asia

Asia and Southeast Asia

China, India, Vietnam, Indonesia,
Malaysia

4

Caspian

Caspian Region and Central Asia

Kazakhstan, Azerbaijan, Uzbekistan

Why SASSA

Institutional clarity, documentary
discipline, and zero ambiguity.

Why SASSA

Our approach is based on the following principles:

- verified origin and resource access
- structured execution methodology
- disciplined documentation and processes
- integration of trading and service models
- focus on long-term, institutional counterpart relationships.

We structure cooperation
with durability and scalability in mind.

Practice and Outcome

In complex cross-border transactions, our work focuses on:

- clarifying authority and accountability
- aligning and structuring documentation
- confirming origin and specifications
- addressing compliance and routing considerations
- bringing transactions to an agreed execution standard.

Risks are addressed
prior to capital engagement.

Strategic Direction

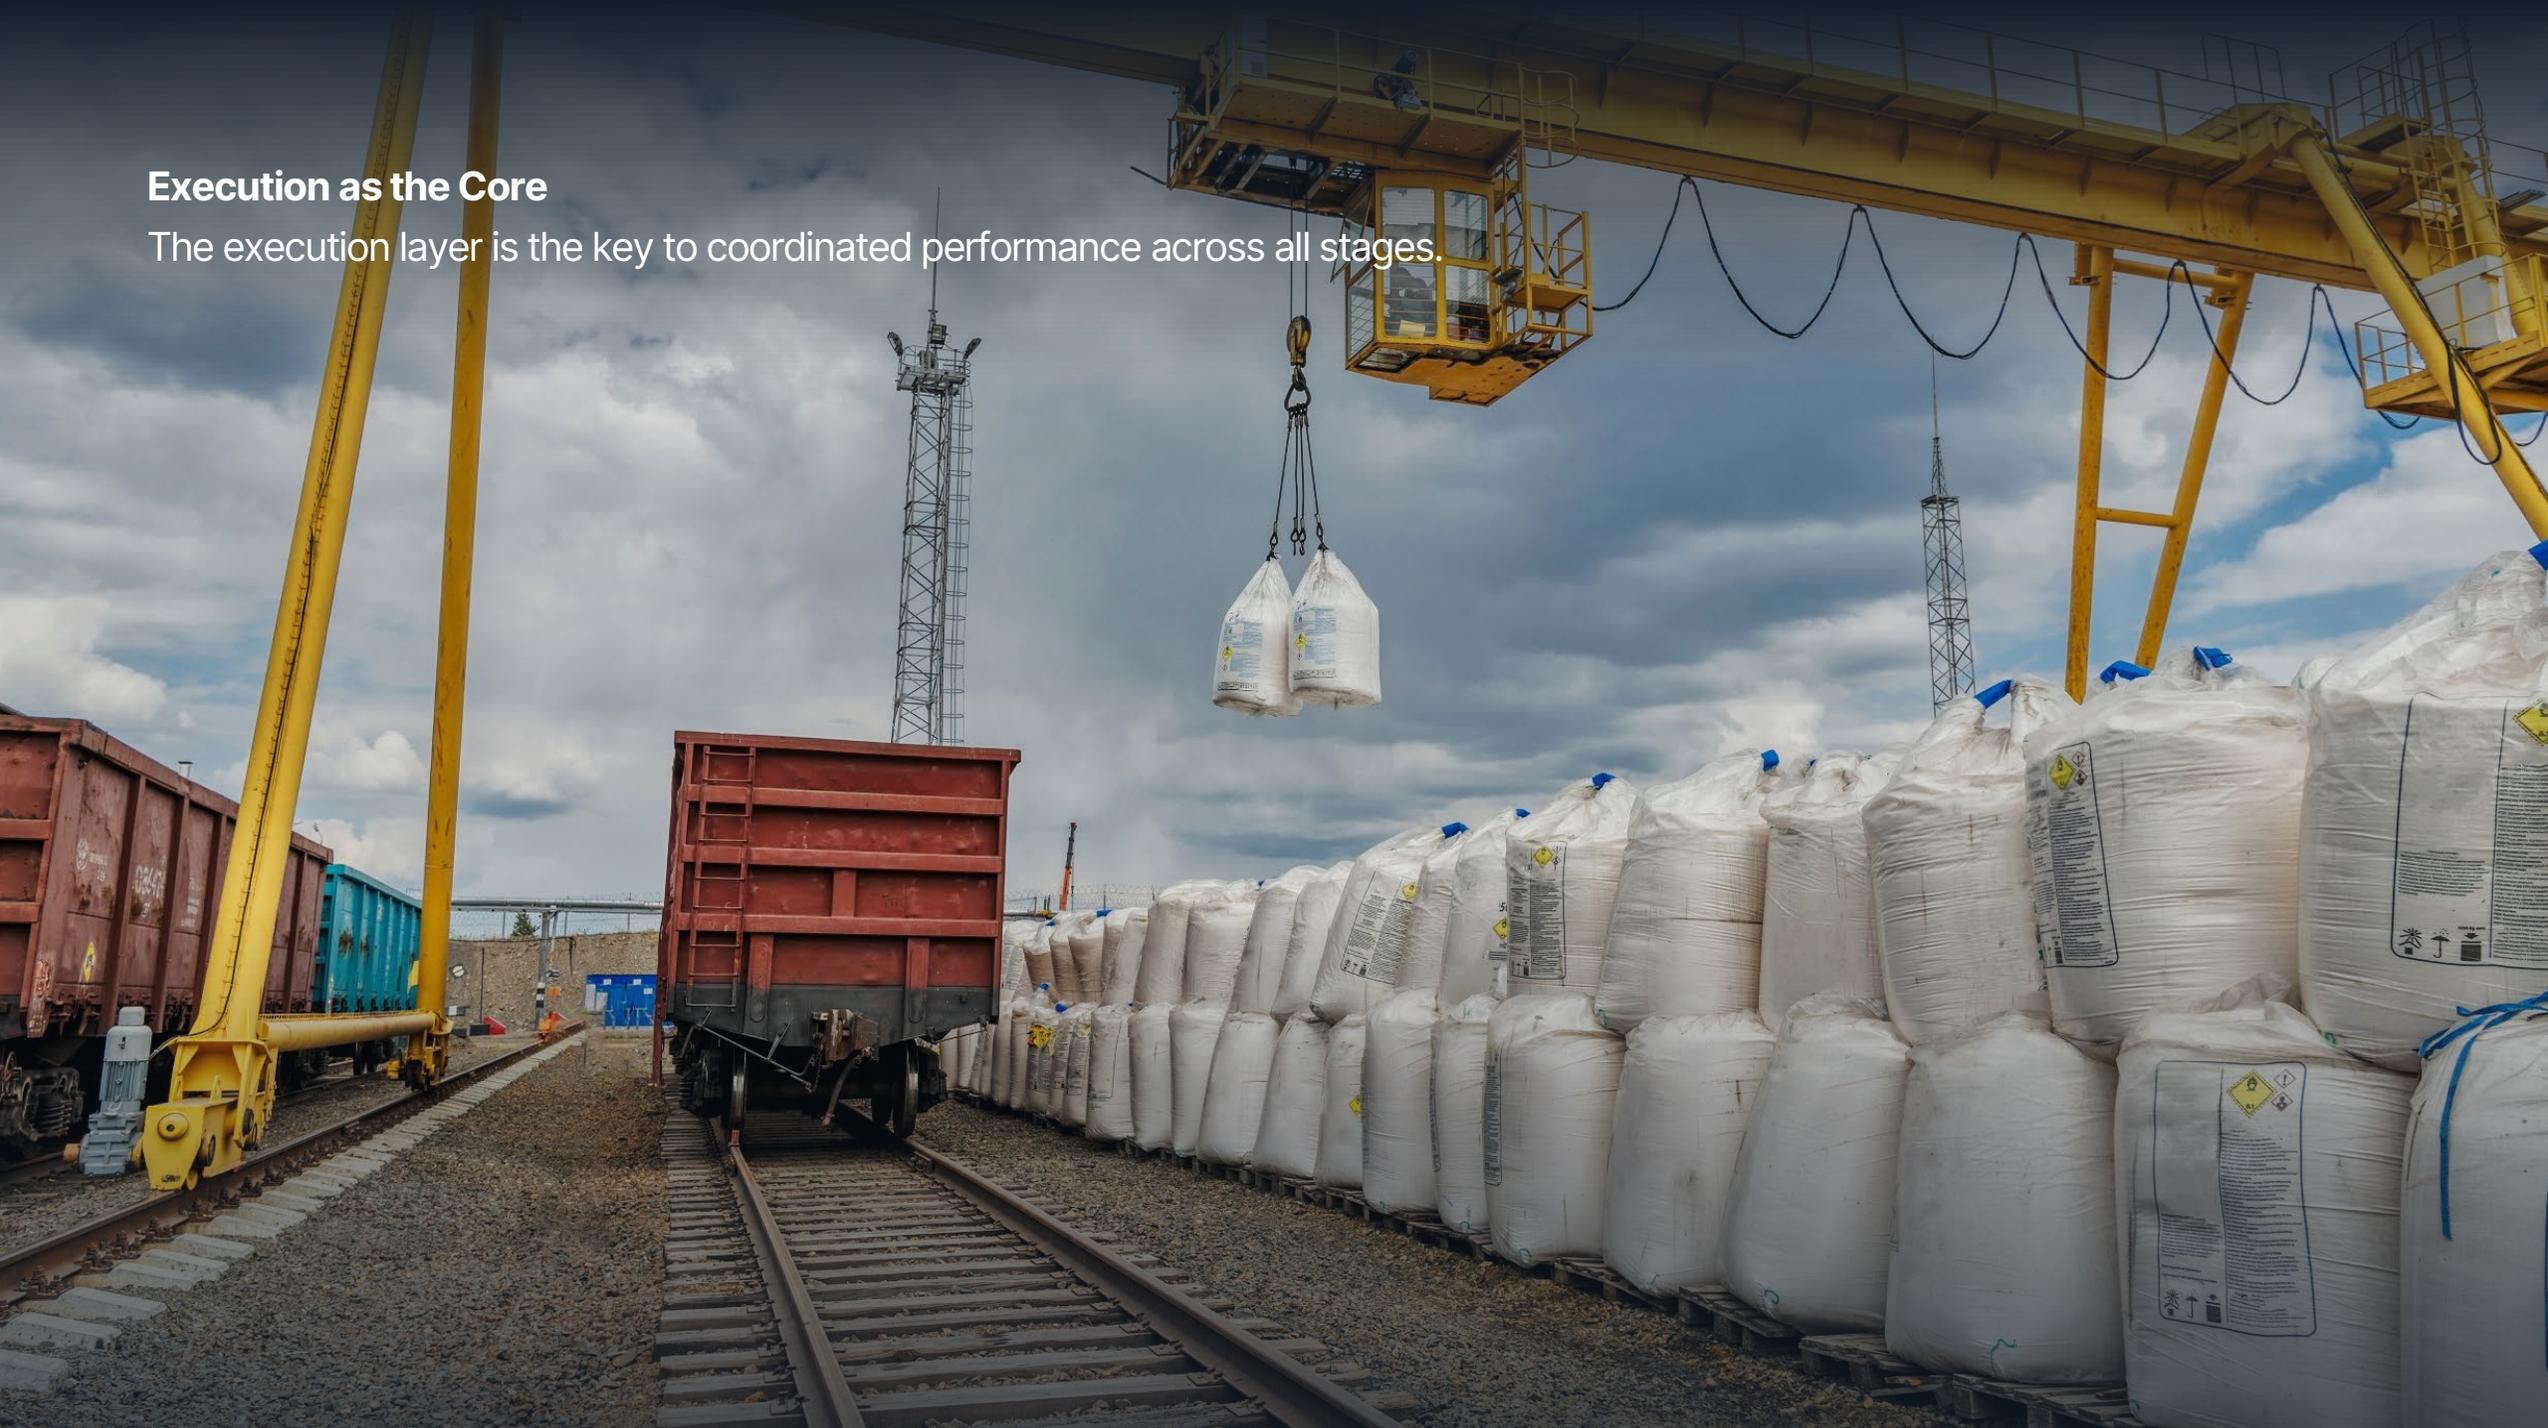

SASSA Group's strategic focus includes:

- expanding access to resource bases
- developing repeatable trade flows
- further strengthening the execution platform
- prudent integration of institutional capital
- growth without loss of control.

Execution as the Core

The execution layer is the key to coordinated performance across all stages.

SASSA Group

Institutional trust is formed
through controlled execution.

Origin. Trading. Execution.

Global Standards. Timeless Values.
